Figure 1 is a scatter plot showing the Week 8 IgG1 Titer (Log<sub>10</sub>) for various groups. The y-axis ranges from 0 to 4. The x-axis shows groups 1 through 6. Group 1 has a mean of approximately 0.4. Group 2 has a mean of approximately 2.2. Group 3 has a mean of approximately 0.0. Group 4 has a mean of approximately 0.0. Group 5 has a mean of approximately 2.2. Group 6 has a mean of approximately 2.7. Error bars represent standard error.

Group	Mean (Log <sub>10</sub> )	Standard Error (SE)
1	0.4	0.1
2	2.2	0.1
3	0.0	0.0
4	0.0	0.0
5	2.2	0.1
6	2.7	0.1

Figure 1 is a scatter plot showing the Week 8 IgG2 Titer (Log<sub>10</sub>) for six different immunization regimens. The y-axis ranges from 0 to 4. The x-axis is labeled with numbers 1 through 6. A legend identifies the symbols: 1. b.j. DNA (filled square), 2. b.j. DNA + EP (filled triangle), 3. i.d. DNA (filled inverted triangle), 4. i.d. DNA + EP (filled circle), 5. b.j. subunit (filled dot), and 6. i.m. subunit (open square). Data points are plotted for each regimen, with horizontal bars indicating the range of titers.

Regimen	Symbol	Week 8 IgG2 Titer (Log <sub>10</sub> )
1. b.j. DNA	■	~2.4
2. b.j. DNA + EP	▲	~1.4, ~2.0
3. i.d. DNA	▼	~0.0
4. i.d. DNA + EP	●	~0.9
5. b.j. subunit	•	~1.5
6. i.m. subunit	□	~1.5

Scatter plot showing Week 10 IgG1 Titer (Log<sub>10</sub>) for various groups. The y-axis ranges from 0 to 5. The x-axis shows groups 1 through 6. Data points are represented by different symbols: solid circles, solid triangles, solid squares, open circles, open triangles, and open squares. Horizontal lines indicate the mean for each group.

Group	Symbol	Week 10 IgG1 Titer (Log <sub>10</sub> )
